Recommended Reading List 2019

All our reading suggestions are taken from the Book Trust guide. Please visit their website for further details and other recommended books.

www.booktrust.org.uk

The list attached is only suggestion - you may have found other super reads. If your child enjoys a particular book, try other books by the same author. Visit the library - this helps children to develop a lifelong love of reading.

It doesn't matter what age your child might be, always share a book with them. The best way to do this is by reading to your child. Once they get older don't stop - take turns in reading - this is not only quality time with your child but also has a profound effect on their learning. *'Reading to your child on a daily basis throughout childhood is one of the most important factors in raising a reader for life, and creating a family reading habit enriches child-parent bonds.'* World Book Day 2018.
