

Welwyn St. Mary's Local Offer 2023-2024

Special Educational Needs and Disability (SEND)

Welwyn St Mary's C of E School is an inclusive school and may offer the following range of provision to support children with SEND. We ensure that pupils are included in all aspects of learning and school life throughout our school. From time to time some children require additional support for a set period of time to help meet their needs or improve their learning. The decision to do this is made by the school and is based on a variety of factors including academic progress, observations, discussions with parents/children and/or assessments carried out by teaching staff or other professionals. It may also be based on ensuring children have a smooth transition into school or require support when going through significant change either at home or school. Parents/carers will be informed when this happens.

Our Local Offer describes the range of provision and support available to support identified children as and when appropriate. This Offer is subject to change depending on budgetary constraints and policy review.

<p>Planning and assessment</p> <ul style="list-style-type: none"> All learning within class is pitched at an appropriate level so that all children are able to access according to their specific needs. Typically this might mean that in a lesson there would be three different levels of work set for the class, however on occasions this can be individually differentiated. The benefit of this type of differentiation is that all children can access a lesson and learn at their levels. The class teacher continually assesses each child and notes areas where they are improving and where further support is needed. As a school, we track children's progress from entry at Reception through to Year 6, using a variety of different methods including Hertfordshire Steps, Little Wandle phonic assessments and HfL's Essential maths diagnostic assessments Individual provision maps are written termly to support children who need extra support in particular areas. The maps identify different interventions that support children's learning. These are reviewed and amended following the intervention and assessment of individual children's needs.

Liaison/Communication with Professionals/Parents, attendance at meetings and preparation of reports

- Early identification of needs requiring referral to external professionals
- Regular communication and information sharing with an extensive range of external agencies such as; CAMHSs, Step 2, Family Support Workers, Specialist Advisory Support (SAS) teams, Speech and Language therapists, Occupational Therapists, Physiotherapists, play therapists, counsellors and school nurses team.
- Sharing of professional reports with parents
- Regular progress meetings with parents/carers by class teacher and SENCO, where necessary
- Early Help Modules (EHM) and meetings convened where 2 or more outside agencies are involved.
- Support for parents who have concerns

Access to Medical Interventions

- The school has a policy regarding the administration and managing of medicines on the school site.
